

How do they inform the public on closure, black-listing?  
Do they depend on integrity from 3rd party? What happens  
to data collected?

Respected Sir,

We would like to submit the following for your kind information and advice.

Vakrangee Softwares Limited through our registrar Union Bank of India had till date deployed almost 500 machines with adequate man power and another 500 machines are also ready to be deployed to support the Maharashtra Government UID enrolment project as per our commitment. Further to our earlier meetings with the DIT Maharashtra and subsequently letter No. DIT 2011/4161/CR199/39(1) Dt. 15<sup>th</sup> July 2011 issued by them, we had also committed our full support for State government to complete the UID enrolment as per targets.

Accordingly, we have submitted our list of locations with various government authorities for their approval and till date we have received the approvals from several local or district level government authorities to setup enrolment camps. However, we are still awaiting the response from some of the local government authorities for intimating us about the approval for other locations as well.

It is to be noted that Vakrangee would like to work in the UID project as per the UIDAI guidelines and proscribed procedures. Vakrangee is also committed to provide the state government with adequate support for completing the UID enrolment as per the State Government Plan. We have taken the following initiatives towards the same:

1. We have already accommodated the State Government's KYR+ forms with our KYR forms and have printed enough number of forms.
2. We have allocated enough machines and man power as agreed so that the UID enrolment target of the state would be achieved.
3. We have clearly displayed in all our camps that the "**forms are free**" for citizens for UID enrolment
4. Our forms also display the message that "**This Form is Available Free of Cost**"
5. We are deploying the machines only at locations which are approved by the State government authorities

However, it has come to our notice that, we have been targeted by some of the local political influences to derail our plan for supporting this initiative of the government

Due to the above reasons, we would like to inform you that we have closed down all the UID enrolment stations in Maharashtra with effect from 31<sup>st</sup> July 2011 and would like to inform you that we would start enrolment only after receiving the proper intimation from government regarding the permission for location approval from the respective local authorities.

In light of the above, we hereby request for the support from the government for deploying machines in government approved locations only and also the local authority support to curb any such activities that derail the VSL and government plan for large scale UID implementations.

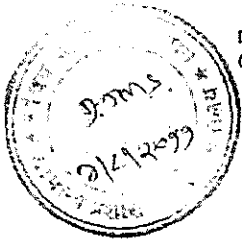

We would humbly request advice on the same.

Thanking you,

Yours faithfully,

For Vakrangee Softwares Limited
